Application for Archaeological Fieldwork in Hungary

In 2026, the Körös Consortium will offer one opportunity for students to participate in archaeological fieldwork in Hungary. This project is primarily funded by the National Science Foundation (NSF) and is co-directed by Drs. Attila Gyucha, William Parkinson, and Paul Duffy, with help from Drs. Danielle Riebe and William Ridge. Four to five students (undergraduate and/or graduate) will be selected for the program, and **some costs (room, board, in-country travel) will be covered by the projects**. Students can work with the directors to apply for additional internal or external funding opportunities to cover flight costs. Selection of students will be based on the completed application.

Project Interest
This summer, we are only offering one field opportunity for students to participate in. For more information about the project visit https://koros.uic.edu/.

____ July 1-29, 2027: Vésztő-Mágor Conservation and Exhibition Program – work at a multi-component tell site carrying out excavations, material analyses, and site conservation (4-5 undergraduate or graduate students)

REFERENCES
Provide the names and email addresses of two people familiar with your academic studies, special qualifications, and/or archaeological fieldwork. Please ensure that these references agree to be contacted by Drs. Gyucha, Riebe, and/or Ridge at a later date.

STUDENT PROPOSAL

Write a ½-1page essay explaining why you are interested in archaeology, in the fieldwork opportunity in Hungary, and how the experience will benefit your future academic or post-school goals. If you have any specific research interests, propose how you could develop a project to further these interests. (Feel free to add the essay to the end of the application)

Make sure you complete all pages of this application.
Email the application along with your essay and contact information for two references by January 16, 2027 to:
